THE life is why the second of the life is why the life is why

The American Heart Association recommends replacing bad (saturated) fats with good (unsaturated) fats as part of a healthy eating pattern.

- **S**
- · Lowers rates of cardiovascular and all-cause mortality
- · Lowers bad cholesterol & triglyceride levels
- Provides essential fats your body needs but can't produce itself

- · Increases risk of cardiovascular disease
 - · Raises bad cholesterol levels

- Increases risk of heart disease
- · Raises bad cholesterol levels
